January 6, 2011

Dear Rob,

This past week we met with the Mill Creek Distribution Committee and discussed what course they would like to pursue for the 2011 distribution season. The members felt it would be best to advertise for a new commissioner.

I want to express appreciation for the efforts you've made as Mill Creek River Commissioner and to thank you for your genuine comments as we discussed the demands of the position and the activities of the 2010 irrigation season. I understand how many commitments you are keeping, that right now you are not in a position to have much flexibility in your hours, and that you would be amenable to stepping down for the coming season. I hope I've summarized our discussion accurately in this regard. If so, I think it best to proceed with advertising for a new commissioner and would ask that you assent by signing, dating and returning the enclosed letter confirming your willingness to resign as commissioner. Also if you would, please return keys to the Moab Irrigation Company Office.

I spoke to the committee about your interest in working to familiarize a new commissioner with the points of diversion as your time might permit. Your offer is appreciated and we will continue to be in touch regarding possible involvement with the new commissioner next season.

Regards,

Lee H. Smit, P.E.

Assistant State Engineer for Field Services

Dear Mr. Sim:

Per our conversations I hope that you will accept my resignation as Mill Creek River
Commissioner, effective February 24, 2011.
